

In the Specification

On page 3, please replace the ninth paragraph (lines 21-23 in the original specification) with the following rewritten paragraph:

Next to the position of the elastic system 6, the platform 4 has parallel passages through which the ~~support~~ guides 3 are assembled in the ~~guides-3 support 4, which~~ The guides 3 can consist of bars of a cylindrical section or another section. Figures 1 and 2 show an embodiment in which the guides 3 are bars of a circular cross section, wherein the parallel passages of the support 4 in which the guides 3 are inserted are passages of the same section as the guides.
